

MAXSEAL IN-THE-GLASS PREMIUM PET DOORS

POSSIBLE PRODUCT VARIATIONS
 SINGLE OR DUAL FLAP MODEL
 10 SIZES / 10 POWDER COATED FRAME COLOR OPTIONS
 2 SECURITY PANEL COLOR OPTIONS
 1" OR 1/2" SPACER CHOICE TO FIT ANY GLASS THICKNESS

Reinforced Corners
 High strength rolled aluminum corner brackets along with internal

Heavy Duty Frame
 Features the strongest frame in the pet door industry, made with 6063-T high strength extruded aluminum 0.070" - 0.090" thick. Offered in 10 powder coated colors.

Weather Seal Brushes
 Heavy Duty, dense weather seal brush lines perimeter of each flap to eliminate drafts & air leakage

Weatherized Flaps
 Nylon reinforced, low temp & flexible. UV protected & treated for shrinking & yellowing. Will remain flexible in extreme cold weather, self extinguishing when exposed to flame, pet friendly.

Specially Designed Spacer
 Choice of 1" or 1/2" spacer to accommodate any glass thickness

Heavy Duty Lock Bolt Pin
 Spring loaded for easy one hand operation, machine finished to match folding panel handle.

Folding Designer Handle
 Fold down security panel handle, machined to match the Heavy Duty Lock Bolt Pin. Provides easy control of panel when inserting or removing, folds down to minimize profile

Insulated Security Locking Panel
 Features the strongest, most secure locking security panel of any pet door made. Insulates perfectly due to composite material design. Constructed of corrugated high density Poly Ethylene (HDPE) adhered between 2 sheets of 27 gage aluminum, then riveted between 2 sheets of rugged ABS, creating both an optimal insulating and security barrier.

Stainless Steel Strikes / Magnets
 Stainless strike plates are riveted to the flap for durability & maintained proper placement to magnet surface. These align with 1.5" alnico magnets embedded in the frame of the pet door to create a positive flap seal. Magnets are positioned along the sides and at the base of each flap, the number will be determined by the size of the pet door. Optional High Wind Extreme magnets are available for customers living in very windy conditions.

FLAP REPLACEMENT
 EASY ACCESS TO REPLACE FLAPS WITHOUT THE NEED TO PAY AN INSTALLER
