

INSULATED Guillotine Kennel Doors

1/2" Composite Insulated Panel
Constructed of corrugated high density Polyethylene (HDPE) air chambers adhered between 2 sheets of #27 gauge aluminum. This core composite is then affixed between rugged ABS creating a rigid, durable, aesthetic insulated panel.

Top Aluminum Panel Cap
.055 thick walled C-Channel affixed with stainless fasteners.

Bottom Aluminum Floor Cap
.055 thick walled C-Channel affixed with stainless fasteners.

Heavy Duty Dual-Channel Side Rails
Solid 6063-T6 extruded aluminum. Rails are heat treated and feature machined screw slots for easy mounting and adjustment. Each Rail measures 2.5" wide x 48" long. Dual-Channel design allows for use with the following models:
-Security Boss Insulated
-Security Boss Standard
-Kennel Clad Insulated
-Kennel Clad Standard

Eye Bolt Assembly
For easy cable attachment

Mounting | Adjustment Slots
Generous adjustment slots measure 1/4" wide x 7/8" long. This allows for proper fitting & alignment of rails to ensure smooth door operation.
