## ***Security Boss® Pet Screen Doors... 'Best by Design'***

### **STRENGTH & BEAUTY**

Our Screen pet doors will seamlessly fit in with any home décor. The rugged design results in a door that will last.

All of our products are designed to be maintained indefinitely.

### **UNIVERSAL MOUNTING**

The Screen Pet Door can be order for installing on the left or right side of your sliding screen door. Our Universal mount allows for installation on nearly any sliding door brand. Stabilizing Kits are available for larger doors.

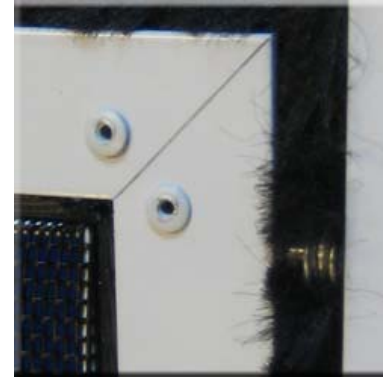

### **WE USE THE BEST MATERIALS**

Security Boss® uses Super Pet Screen for their Screen Pet Doors. This material is tough and made to be resistant to clawing, scratches and tears, keeping your door looking good and performing at it's best

### **CRAFTSMANSHIP**

Attention to detail sets us apart from all others. Often it is what you do not see that makes the difference.

### **STRENGTH & SAFETY**

Frames are riveted and reinforced internally for structural strength. Attention to detail results in a pet friendly screen door. Smaller pets can easily use larger doors for households with multiple pets.

### **BUG PROOF**

We use a heavy density brush weather stripping to seal the gaps to provide a bug proof seal
